

### “Passport to Success”

This K-8 Resource Teacher created a big goal that all of her students would meet their IEP goals, and then translated in to student-friendly language: “All students will reach their destination by the end of the year.” Using a travel theme, she created “passports” for each of her students, with each page listing one of their IEP goals. Each time a goal was met, students moved their passports along their routes, closer towards their “destinations.”

*When given a mixture of 8  
math problems requiring  
both single and multi-step  
solutions, I can determine how  
and when to break a problem  
into simpler parts.*

*When given an assignment  
by my regular classroom  
teacher, I will begin and  
complete said assignment.*
